I find the results of the first [redacted]

highly encouraging, and certainly a green

He would now like to ask Mr. Gates same question. Would you have him look this over and get back to <div style="border: 1px solid black; width: 50px; height: 15px; display: inline-block;"></div> please?

NOTE FOR: EXDIR

Jim:

Per your request I have looked at the DDA's memo on the [redacted] Familiarization Course and reviewed many of the critiques offered by the students. It is clear that I should rethink my original view of the need [redacted] to take all 10 weeks. I believe that Harry's suggestion that we reopen the question either now or after the May running is a good one. In any event, the critiques indicate that we need to do some pre-course planning and briefing which I am sure the [redacted] instructors will take care of.

Evan:

You'll recall the EXCOM debate about the need for [redacted] a 10-week [redacted] training course. Here are the results of our first running of the 3-week substitute which you'll recall we approved as an interim solution. Would you glance through this and see if you still support the idea of the 10-week course? Thanks.

MEMORANDUM FOR: Executive Director

FROM: Harry E. Fitzwater
Deputy Director for Administration

25X1 SUBJECT: [] Familiarization Course

25X1 1. You will recall that in approving the expanded Directorate-wide Career Trainee (CT) Program, the Executive Committee gave the go-ahead to develop a 3-week version of the 10-week [] Training Course [] for all non-Directorate of Operations (DO) CTs. The first running was completed in December, and the course chairman's report and student evaluations are now in. These are attached.

2. In my view, the CTs' response was remarkably enthusiastic, especially since this was the first running. But you can judge for yourself.

25X1 3. [] recommends that we reexamine the decision
25X1 to send all CTs to the full 10-week [] perhaps expanding the 3-week to a 5-week course. The Executive Committee views the 3-week version as an interim solution until we get ourselves in
25X1 a position (next winter) to give the full [] to all CTs. Of
25X1 the original objectives in sending non-DO CTs to the full [] the only one that would clearly not be met is the idea of strengthening the bonds between DO and non-DO CTs.

4. I think we should reopen the question after we have the results of the next 3-week course in May. You may want to send a copy of the attached Report and student evaluations to Executive Committee members.
